

CURRENT HISTORY

November 2011

Vol. 110, No. 739

CONTENTS

- 299 Democracy's Third Wave Today** *Larry Diamond*
Twenty years after Samuel Huntington published his seminal study of the "third wave" of global democratization, authoritarians have retrenched and restlessness in democracies is rampant. Yet long-term prospects for the spread of liberal political institutions remain encouraging.
- 308 Is There a Proper Sequence in Democratic Transitions?** *Francis Fukuyama*
When is a nation ready for democracy? Some say authoritarian-led economic growth and the rule of law should come first. The evidence suggests no universal template.
- 311 The New World of Democracy Promotion** *Lincoln Mitchell*
Twenty years ago, leaders of many post-Soviet and developing countries welcomed Western assistance in building their democratic institutions. Things have changed since then.
- 317 The Transnational Challenge to Arab Freedom** *Jason Brownlee*
Washington, though it belatedly hailed the ouster of Egypt's Hosni Mubarak, continues to prioritize the stability of allied autocracies over democratization in the Middle East.
- 324 Democracy and Reconfigured Power in Africa** *Richard Joseph*
The writing is on the wall for Africa's remaining strongmen. But establishing law-based and accountable institutions after autocrats are gone remains a daunting and uncertain task.

PERSPECTIVE

- 331 Could China Be the Next Wave?** *Bruce Gilley*
China's one-party state is here to stay, many observers agree. Then again, Huntington in 1984 assessed the odds of regime change in the communist world as "virtually nil."

BOOKS

- 334 Dictators and Democrats, Unite!** *William W. Finan Jr.*
Of course critical differences distinguish democratic from authoritarian governments. Still, a new book argues that all politicians, in striving to gain and keep power, consult essentially the same handbook.

THE MONTH IN REVIEW

- 335 September 2011**
An international chronology of events in September, country by country, day by day.
