

A VERY SPECIAL OFFER FOR LIBRARIANS

These 4 issues **FREE** with your subscription to
CURRENT HISTORY

4 issues on *Problems of American Democracy* . . .

in September . . .

I EDUCATION IN CRISIS

How can we add to the educational opportunities now offered to young Americans? How can we raise our educational standards?

in October . . .

II SECURITY IN A FREE SOCIETY

Can we reconcile our need for security to protect the United States against subversion with our right to think for ourselves and to dissent?

in November . . .

III IMMIGRATION AND THE AMERICAN IDEAL

How many immigrants can the United States admit without affecting American living standards? Can we still provide a haven for the oppressed?

in December . . .

IV DILEMMA OF EMPIRE

How well has the democratic United States handled its overseas territories? Can a democracy govern an empire?

McGraw-Hill
Series in History

Here is a vivid re-creation of the American story. In fusing social—including economic and intellectual—history with the more traditional emphasis on the political story the authors succeed in weaving all the strands of American history into a more meaningful and understandable pattern.

It is a full and fascinating description of American life, its culture, its relationship with the rest of the world, and the personalities who have played a significant role in the growth of the United States since its discovery.

Volume I: *Youth* covers the period from early exploration to 1877. It carries the American story through the political reconstruction following the Civil War. The Colonial period, in a relatively brief treatment, presents background material for later developments. The entire volume achieves a balanced narrative, showing the development of a distinctive American culture, with its various complex interrelationships.

Volume II: *Maturity* continues the national story of the United States from 1877 to the present, but with some earlier connections, since social, economic, and intellectual patterns are even more difficult to divide into neat chronological packages than are the political and diplomatic. The basic trends are the development of an industrialized, urban, high-speed civilization and of increasing participation and leadership in world affairs. There are, however, many cross-currents clearly visible.
