PUBLIC POWER IN THE UNITED STATES

May, 1958

Our May issue on Public Power is devoted to a problem of great importance for the American people—the conflict between public and private power development. In seven articles the ramifications of power development are discussed:

Public Power Development prior to the New Deal, an introductory article focusing on Muscle Shoals by *Preston J. Hubbard*, Assistant Professor of History, Austin Peay State College;

The Tennessee Valley Authority: the history and current status of this first full-scale public power project in the United States by *John Oliver*, Executive Vice-President, Development and Resources Corporation and formerly General Manager of TVA;

The Hell's Canyon Project: its political, economic and conservationist implications by *Theodore Saloutos*, Professor of History, University of California;

The Niagara Project by *William Leuchtenberg*, Associate Professor of History, Columbia University;

The St. Lawrence Seaway Project: the history of the difficulties between the United States and Canada over power development in this area by *William R. Willoughby*, Department of History and Government, St. Lawrence University;

The Atomic Energy Commission and the Development of Atomic Power by *Leslie W. Dunbar*, Department of Political Science, Mount Holyoke College;

The United States View of Power Development in the Underdeveloped Areas by *Everett D. Hawkins*, Chairman, Department of Economics and Sociology, Mount Holyoke College.

Published monthly by Events Publishing Co., Inc. Publication Office, 108-10 Walnut St., Philadelphia 6, Pa. Editorial Office, Wolfpit Rd., Norwalk, Conn. Entered as second class matter May 12, 1943, at the post office at Philadelphia, Pa., under the Act of March 3, 1879. Indexed in *The Reader's Guide to Periodical Literature*. Individual copies may be secured by writing to the publication office. No responsibility is assumed for the return of unsolicited manuscripts. Copyright 1958, by Events Publishing Company, Inc.
