

COAL RESOURCES OF NORTH AMERICA

Boxed figures indicate 1963 tonnage output, bituminous and lignite, in millions of tons, in 5 leading states. In addition, 18 million tons of anthracite were mined in eastern Pennsylvania.

TWO NEW REFERENCE SERVICES FROM CURRENT HISTORY

CURRENT HISTORY ANNUAL, 1970

. . . A day-by-day, country-by-country review of the events of 1969 arranged chronologically and alphabetically and carefully indexed by the editors of *Current History*. This new yearbook, adapted from *Current History's* "Month in Review," is indexed in a single volume as a service to our readers. It also contains the index to twelve 1969 issues of *Current History*.

CURRENT HISTORY BINDER

. . . A sturdy, hard-cover binder at a reasonable cost to protect *Current History* for permanent reference. The easy-to-use binder holds 12 issues securely in place over flexible steel rods. Each issue of *Current History* can be placed in the binder every month, to preserve your file of this handbook of world affairs. A thirteenth rod is included to secure the *Current History Annual*.
