Table S1. Indicators for vulnerability measures in ND-GAIN Country Index.

Sector	Vulnerability		
	Exposure	**Sensitivity**	**Capacity**
Food	Projected change of cereal yields	Food import dependency	Fertilizer, irrigation, pesticide and tractor use
	Projected population change	Rural population	Child malnutrition
Water	Projected change of annual runoff	Fresh water withdrawal rate	Access to reliable drinking water
	Projected change of annual groundwater recharge	Water dependency ratio	Dam capacity
Health	Projected change of deaths from climate induced diseases	Slum population	Medical staff
	Projected change of length of transmission season of vector-borne diseases	Dependency on external resource for health services	Access to improved sanitation facilities.
Ecosystem Services	Projected change of biome distribution	Dependency on natural capital	Protected biomes
	Projected change of marine biodiversity	Ecological footprint	Engagement in International environmental conventions
Human habitat	Projected change of warm period	Urban concentration	Quality of trade and transport related infrastructure
	Projected change of flood hazard	Age dependency ratio	Paved roads
Infrastructure	Projected change of hydropower generation capacity	Dependency on imported energy	Electricity access
	Projection of Sea Level Rise impacts	Population living under 5 m above the sea	Disaster preparedness
